

Fork Lift Truck Refresher

Duration: 1 day

This practical course is designed for existing fork lift truck (FLT) operators who have attended a basic training course and have passed the RTITB (or JCITB) test. FLT operators are recommended to attend this course at three year intervals. The aim of the course is to remind participants of the need for, and methods of, correct and safe operation of Fork Lift Trucks, reach, counterbalance or pedestrian, and to re-take the RTITB assessment and skill test.

Course includes:

- The Health and Safety at work act and its implications
- FLT Operator Safety codes
- Stacking and De Stacking pallets of various heights

Pre requisites

There are no prerequisites for this course
